

Utilities & Mass Transportation Services

The City of Chula Vista has well established, safe, and dependable utility and transportation services in place for residents and businesses. Water, gas and electric, and waste services selected by the City are contracted independently by individual users. Mass transportation opportunities extend from throughout the city to neighboring communities in San Diego County with buses, trains and trolleys criss-crossing the region making travel accessible and economical.

OTAY WATER DISTRICT

The Otay Water District provides water service to eastern Chula Vista and to the communities of Spring Valley, La Presa, Rancho San Diego, Jamul, and portions of Otay Mesa along the International Border with Mexico. The Otay Water District also operates an extensive recycled water distribution network serving eastern Chula Vista and Otay Mesa, and owns and operates a wastewater collection system providing public sewer service to homes and businesses in the Jamacha drainage basin.

SWEETWATER AUTHORITY

Sweetwater Authority provides water service to the western and central portions of Chula Vista as well as National City and Bonita. Sweetwater Authority owns and operates Loveland Reservoir, Sweetwater Reservoir, a brackish groundwater demineralization facility and deep freshwater wells. Water obtained in each of these areas is influenced by the Sweetwater River Watershed, a land stretching from the Cleveland National Forest to San Diego Bay.

ALLIED WASTE SERVICES

Allied Waste Services is the City of Chula Vista franchisee for residential and commercial/industrial recycling and trash services. Allied Waste also provides commercial and industrial services to unincorporated areas surrounding Chula Vista as well as parts of San Diego. Allied Waste Services operates the Otay Landfill, one of three landfills in the county of San Diego.

CHULA VISTA TRANSIT

Chula Vista Transit (CTV) is managed by the City of Chula Vista and is part of the Metropolitan Transit System (MTS) which provides transit services to the greater San Diego region. MTS coordinates fares, transfers, routes and information services to the region. Being part of the MTS enables CTV passengers to transfer from one transit system to another in a seamless fashion. CTV operates a fleet of 39 buses of which 32 are new, low-floor, clean burning Compressed Natural Gas buses.

SAN DIEGO TROLLEY

The San Diego Metropolitan Transit Development Board (MTDB) provides light rail, or trolley, service from the international border at San Ysidro, through Chula Vista, to downtown San Diego, the Convention Center, Qualcomm Stadium and east to the suburbs of El Cajon and Santee. Chula Vista has three trolley stations, all located in the western part of Chula Vista where the trolley line parallels Interstate-5 – Bayfront/E Street Station, H Street Station and Palomar Station. Planned extensions of the San Diego Trolley include eventual service to the Otay Ranch community in eastern Chula Vista.

CAR POOL, VANPOOL, PARK AND RIDE

RideLink offers a number of free services to assist employers in setting up in-house commute programs such as rideshare matching, carpooling, and vanpooling. Ridelink also helps individuals find commuters interested in carpooling. Two Park and Ride lots are located in Chula Vista. Lots are available for free parking to individuals meeting carpool, bus, or trolley transportation.
